Description of the event

The landscape of Assam is nurtured with myriad wetlands. To celebrate the beels and pukhuris of Assam, Indian Institute of Technology Guwahati and Cotton University have jointly organized a program, '*Aadrita Ardrabhumi*,' on the occasion of World Wetlands Day.

This event will facilitate a platform where the research community and the citizens can exchange ideas, stories and discuss innovative ideas and solution to conserve the Wetlands of Assam.

Organised by

- Indian Institute of Technology Guwahati
- Cotton University

Wetlands - Nature's water treasury

Events for World Wetland Day 2021

1. LimKnow – The wetland survey

A citizen science based survey will be conducted to generate a database about the location, present status and condition of wetlands in Assam

2. Mini Lecture series

Pre-recorded talks will be streamed on YouTube. Prominent experts will be speaking about the wetland hydrology, wetland ecology and associated topics before the event day.

3. Walkie Talkies

In this talk series our focus will be on ground level wetland practitioners from Assam who are leading restoration and protection work on the field.

Attend the lecture series on

 **YouTube** @[AADRITA ARDRABHUMI](https://www.youtube.com/AADRITAARDRABHUMI)

Competition

4. Wetland Reels

A short video contest (<3 minutes) on creating awareness about wetlands, to strengthen the connection between wetlands and people

5. Research communications

This competition encourages researchers to explain their wetland research or an associated topic on water or ecology to every citizen in the most exciting manner..

আর্দ্র ভূমি presents

WETLAND REELS

Every wetland is a storehouse of untold tales and memories.

Share your stories with us and the world about the observations you made on a wetland near you.

The basic theme of the videos should be associated with wetlands.

For example: One can create a short video on a migratory bird species he/she has observed. It can be about the threats the wetland faces near them or the revival story of a wetland from the onslaught of pollution and encroachment....

This is your story. So get creative and grab your camera or mobile phones.

Highlights:

1. Best 3 entries would receive exciting gifts and prizes
2. Participants will be provided with certificates and their work will be showcased during the event days.

Terms and Conditions:

1. Registration is free and the competition is open to all.
2. The video should not be more than 3 minutes
3. The video must be associated with wetlands.
4. The video can be in English or in any local language
5. Last date for submission is 28th January, 2021
6. Mail us your videos at ardrabhumi2021@gmail.com

RESEARCH COMMUNICATIONS

If you are a researcher, a scientist or someone who is filled with curiosity, then this event is for you.

Write about your research findings/observations in a way that bridges the gap between citizens and scientists. The explanations should be related to wetland and/or water.

For more details

<https://tinyurl.com/y2g97art>

Highlights

1. The best two entries will win exciting gifts and prizes
2. The articles will be combined and published as a digital document
3. e-Certificates of excellence for winners and appreciation for all the participants.

Terms and Conditions

1. Registration is free and competition is open to all.
2. The word limit of the writeup is 350 words
3. Language is not a bar
4. A picture or graphic may be added.
5. It is encouraged to avoid jargons
6. Last date for submission is 27th January, 2021
7. Mail us your writeups at ardrabhumi2021@gmail.com

“Research is to see what everybody else has seen, and to think what nobody else has thought” ~Albert Szent-Györgyi
